

**Whole School Priorities 2009/2010**  
*'Opportunity, success and enjoyment for all'*

These have now been agreed by Governors and are as follows:

- 1. Increase the effectiveness of curriculum delivery by ensuring that 'best practice' becomes 'common practice' in terms of:**
  - meeting individual needs;
  - enthusing and engaging students;
  - assessment;
  - incorporating and delivering 'essential skills'.
  
- 2. Ensure that we are a 'Centre of Excellence' in provision at 16+ in terms of:**
  - value-added measures of student achievement;
  - maximising opportunities;
  - supporting students.
  
- 3. Develop a more inclusive curriculum structure providing opportunities for, and meeting the needs of, all.**
  
- 4. Develop relationships and practice throughout the school in such a way that all who work and learn here are encouraged and helped to:**
  - take increasing responsibility for their own lives and learning;
  - listen to, and learn from, one another;
  - understand and respect one another;
  - support one another;
  - develop self-confidence, positive attitudes and positive behaviours.
